Dental Technology Solutions - Simplifying Technology

Wednesday; December 14, 2005 9:00AM to 4PM 6 CEU credits

Paul Feuerstein, DMD, John Flucke, DDS and Martin Jablow, DMD

COST: MCDS / NJDA members & Staff \$ 65 Non-Members \$ 225

Having a hard time keeping up with the latest dental technology ???

We have a possible answer for you – **Dental Technology Solutions!**

Taking complex dental technology and breaking it down to usable parts—that's what Dental Technology Solutions will do for you. You will have the opportunity to learn about specific technologies from experts that use the products daily. And better yet, when you leave, you'll be ready to put them to use in your practice!

All three presenters are dentists with active private practices. Collectively, they have experience with each of the technologies described and are on the forefront of researching new technical devices.

See reverse side for further information about this special program

This Dental Technology program will be held at the Pines Manor in Edison, NJ

All three presenters are dentists with active private practices. Collectively, they have experience with each of the technologies described and are on the forefront of researching new technical devices.

Paul Feuerstein, DMD

As Technology Editor of *Dental Economics*, and with hands-on experience which began with his first “in-office” computer in 1978, Dr. Feuerstein is recognized for programs, writing and consulting which meet the needs of diverse levels of audience and reader background. Columns and articles appear in several journals including *Massachusetts Dental Society*. As a practicing general dentist, his information is practical and understandable.

John Flucke, DDS

The Technology Editor for *Dental Practice Report*, Dr. Flucke is a general dentist who practices just like everyone else. I have taken my office from a paper based, analogue world to an office running networked computers for video, chairside computer scheduling, and charting. Air abrasion and automated endodontics are part of my every day routine. Technology has helped me increase my productivity, boost my income, and make my practice fun and interesting for myself as well as my staff and patients.

Martin Jablow, DMD

A specialist in audio, video and data networking. Dr. Jablow consults with offices for technology integration with the use of low cost components to get high tech results. A practicing general dentist, Dr. Jablow has been using hard and soft tissue lasers since 1992. Dr. Jablow presents high tech topics in an easy to understand format allowing you to implement technology in your office very quickly
