President’s Message ... Maya Prabhu

When I sat down to pen this message I thought back to the day that I attended my first county meeting sixteen years ago. Back then it seemed like a roomful of male faces with only a handful of women. Gradually the demographics of our dental society changed. We began to see an infusion of young dentists from diverse ethnic backgrounds with equal representation of both sexes. This transformation, I believe, is today’s face of dentistry. I would like to take this opportunity to impress upon our new members the value of serving in leadership positions within our society. For some, assuming a leadership role can be a daunting prospect. I know this because I felt exactly the same way when I was asked to join the ranks five years ago. The fear of the unknown brought with it the reluctance to change, and although I didn’t know it at the time, taking an active part in the society was the first step that I took towards my own

GENERAL MEETING – Tuesday, September 21, 2010

THE PINES Route 27 • Edison, NJ

Registration.....	6:00
Business Meeting and hors d’oeuvres.....	6:30
Dinner and Speaker.....	7:00

“New Diagnostic, Surgical, and Prosthodontic Paradigms to Optimize Implant Reconstruction through Innovations in Technology”

Featured Speaker: Dr. Scott D. Ganz

It has been stated that the “goal of implant dentistry is not the implant, it is the tooth that we replace...” Achieving successful implant reconstruction is therefore dependent on many factors. This presentation will demonstrate how new paradigms in pre-surgical planning can aid in the assessment of the soft tissue housing necessary for proper emergence profiles, determination of interproximal height of bone understand abutment considerations, assessing embrasures, occlusal considerations, temporization, and how they affect the ultimate esthetic result through various case illustrations.

Dr. Scott D. Ganz graduated from the University of Medicine and Dentistry of New Jersey. He completed a three-year specialty program in Maxillofacial Prosthetics at M.D. Anderson Cancer Center in Houston, Texas. Dr. Ganz is well- published in various scientific journals and he has delivered presentations both nationally and internationally. He currently serves as Assistant Editor for the peer-reviewed journal, Implant Dentistry and the editorial staff of Practical Procedures and Esthetic Dentistry. Dr. Ganz is on the staff of Hackensack University Medical Center, and on faculty at UMDNJ. He is a Past President of the N.J. Section of the American College of Prosthodontists and the current President of the Computer Aided Implantology Academy (CAI Academy). He maintains a private practice in New Jersey.

MCDS Board of Trustees Report

-05/11/2010-

Attendance: Ashmen, Bernstein, Cicalese, Desai, Galkin, Goldstein, Kahn, Krantz, Mir Madjlessi, Prabhu, Rizzi, Savage, Schambra, Silverstein, Stein, Vora, Weiner

Acceptance of Minutes-vote unanimous.

President's Report-Scott Galkin

I would like to thank everyone for a great year. Without the help of this board, I would not have been nearly as successful. The volunteer work of the MCDS board of Trustees goes somewhat unnoticed, but is what makes our society the best in the state. Thank you again!

Treasurer's Report-David Stein

See full report on page 3.

Website Editor's Report-Bob Silverstein

We are occasionally receiving charge backs on our PayPal account for the online course registrations. This report should serve as a reminder to the membership that the charge will appear on their credit card bill as "MCDS Online Registration," or something to that effect. If you see a charge from Paypal on your statement and don't immediately recognize it, please compare the dollar amount of the transaction with your receipt from the course registration..

NJDPAC Report-Mark Vitale

See a special message on page 4.

NJDA Council Reports:

Dental Education-Bob Ashmen

The Council on Dental Education hosted a meeting bringing together the heads of all CODA-accredited dental assisting programs in NJ and some NJ high school career/guidance counselors. All attendees were very appreciative to the NJDA for creating and hosting the event. Issues discussed included the demand by the dental profession for qualified dental assistants, raising awareness amongst appropriate high school student candidates of this career opportunity, and the need for our profession to heighten the public image and perception of the career of dental assisting. Also recognized was the need to build relationships between NJDA and NJDAA local societies to support one another's missions. At the end of the meeting it was decided to have this meeting at least annually.

Governmental and Public Affairs-Mitch Weiner

Our next meeting is a joint meeting with PAC down in Trenton at the State House slated for late this month.

Membership-Tara Savage

The Council on Membership met on April 22, 2010.

Tricia DeCotiis gave a year-to-date report. NJDA has 4,329 members as of April 22, 2010. This is just slightly behind from last year at this time. There have been 73 dues waivers so far this year. This is more than in previous years at this time. In 2008 there were a total of 78 dues waivers for the entire year, and in 2009 there were 87.

NJDA will run the trial membership program for the second year. The program was very successful in 2009. Approximately 25% of 41 trial members in 2009 have officially joined the New Jersey Dental Association. Last year's trial members that did not join will not be permitted to participate in the trial membership program again. Approximately 28 people have signed up for the trial membership program for 2010.

As part of the NJDA's marketing collaborative project with the ADA, postcards

personal growth. This society has an exceptional group of volunteers that serve on the Board of Trustees. I have sat at these meetings and marveled at the wealth of accumulated knowledge and experience they possess. As younger members become more involved and join this Board, they are gradually mentored into their roles. But this learning process isn't just a one-way street. New members bring with them unique perspectives and expertise that help to create a dynamic reciprocal learning experience for all. This allows for new thoughts and ideas to take form. In the past I would often wonder why former presidents continued to attend Board meetings until I realized that their participation stemmed from an inherent desire to serve a profession that gives back so generously. I now begin my journey as President with confidence, knowing that I can count on this formidable 'think-tank' to help me deal the right hand. At this time, I would like to invite any member to come forward and make time to be with us on the second Tuesday night of the month at NJDA headquarters. I can assure you that it will be the start of a magnificent process of personal and professional enrichment. The setting couldn't be more conducive!

Provide NJDA with your email address!

By having your email address, NJDA can get vital and timely information to you. Register at www.NJDA.org.

MCDS Board of Trustees Report

Continued from page 2

were mailed to all NJDA members asking members that are interested in volunteering time to indicate their area of interest. NJDA has received 20 responses to the mailing so far.

Tricia DeCotiis proposed starting a "Member Get a Member" recruitment program similar to the one used by the California Dental Association. This program would reward current tripartite members with a \$50 credit for each new member they recruit, up to a maximum of \$250 per year, to be used towards their dues the following year.

Starting on July 1, new members who join NJDA will pay half-year dues.

MCDS Study Club

The MCDS study club met on May 4, 2010 at 6:30pm. There were 8 members in attendance. The format for this meeting was a roundtable discussion with case presentations. The meeting was held at the Crowne Plaza Hotel in Edison. 2 CE credits were awarded. The study club is a member benefit available to all MCDS members. Please contact Marlene Glickman, our Executive Secretary, at 732-238-1255 for additional information and registration in advance.

Peer Review-Sandy Goldstein

There were no new cases mediated or settled during the month of April 2010.

Committee Reports:

Mentor-Amit Vora/Nima MirMadjlessi

Our bi-annual OSHA program that satisfies the OSHA standard on Occupational Exposure to Blood Borne Pathogens, which is required annually for dentists and staff, will be given on June 3, 2010 at St. Peter's Medical Center, New Brunswick.

Two CEU credits are awarded to the Dentists & staff members attending these 2-hour seminars. These seminars are available to our members & staff for \$25/pp as a member benefit of MCDS.

A very big "Thank You" to Dr. Joe Fertig, Director of Dental Services - St. Peter's Medical Center, for arranging all our room accommodations for the MCDS OSHA-Mentor programs at St. Peter's Medical Center in New Brunswick. Please see the insert in this newsletter for additional information and registration for the Mentor/OSHA program.

Oral Cancer Screening-Constantine Simos for Arpan Nandra

On April 20th MCDS members participated in an Oral Cancer screening at the Middlesex County College Dental Hygiene program. The program was organized by Lynn Tobin who is on the faculty of MCC and on staff at Robert Wood Johnson University Hospital. Dentists who volunteered were doctors J. Petrocelli, D. Stein, R. Kreitman, Jamie Leizer, K. Kalaria, R. Stern and C. Simos.

Dental Hygiene Study Club-Alyssa Bernstein

The Central New Jersey Dental Hygiene [CNJDH] Study Club met on Wednesday May 5, 2010 at the Crowne Plaza Hotel, Rte 27 South, Edison NJ and was sponsored by the Middlesex County Dental Society. The speaker was Dr. David Lederman speaking on lesions found in the oral cavity.

Two CEU credits were awarded to the 29 Hygienists that attend this meeting.

The next CNJDH meeting will be on Wednesday September 29, 2010 at the Crowne Plaza Hotel in Edison. The speaker will be Dr. Jim Albani and he will be speaking on cone beam imaging for implants. Two CEU credits will be awarded for this seminar.

This CNJDH study club is available to our hygienists as a Dentist-member benefit of MCDS. Please see the registration form included in the newsletter for information on the upcoming speakers and to register your hygienist.

Please contact Marlene Glickman, our Exec.Sect'y for MCDS, at #

Continued on page 4

MCDS Board of Trustees Report Continued from page 3

732-238-1255 for additional information and registration in advance for the program.

In addition one of the lectures for next year is open to doctors and hygienists, Hahn Diagnostics is presenting on marker pathogen analysis for perio. They will only present to the hygiene study club if there is at least 10 doctors present. Please consider attending this lecture.

Old Business

Dr. Galkin and Dr. Stein attended the NJDA Partners Program last month. They accumulated lots of contacts for future sponsorship from different industries. They will use these contacts for potential sponsors in the future.

Good & Welfare

The Board expressed its appreciation to Dr. Galkin for all of his hard work this past year as President.

Respectfully Submitted, Constantine Simos, Secretary

NJDA Council on Governmental and Public Affairs Update Summer 2010

Legislation Concerning Supervision of CRNA's: CRNA's are attempting thru legislation to make themselves equivalent to PA's and nurse practitioners so they can work unsupervised from MD's and dentists. OMFS's are opposed to this legislation.

DEP Radiological Inspections: During this inspection visit from now on, the DEP will also be inspecting Amalgam Waste practices (Best Management) as well as the presence of amalgam separators in offices where they are mandated.

Out of Network Update: Push by Christie Administration and Legislature to get more medical/dental practitioners to join networks. In the short term, impact could be felt more by OMFS and other dentists that submit medical insurance claims.

State Budget: The state has NO MONEY! They have discontinued Medicaid Ortho and Adult Medicaid Dental could be on the chopping block going forward. We will most likely see monetary increases in fines, licensing fees, registration fees, etc. due to the budget shortfall.

Oral Cancer Screening Day- to be held in Trenton in September (date TBA)

National Health Care Reform: Under the new reform bill, a 3.5-3.9% tax on 'medical devices' will begin in 2014. The ADA is unclear at this time whether dental appliances will be exempt.

Houston, We Have a Problem

At a recent NJ Dental Political Action Committee Board meeting we received alarming and extremely troubling news that our political action dollars are down more than 50 percent as compared to the same time last year—more than \$100,000! What's worse is political action contributions are down nearly 66 percent since two years ago—more than \$150,000!

The bottom line is we need you back!

I know the reality out there, the economy stinks! And, I know what you are thinking, "our waiting rooms are slow, collections are down and the political action dollars are "optional". Also, dentistry is doing pretty well right now, all things considered, in the legislative and regulatory arena, so they don't need me." The fact is we need you more than ever. Most political action committees are down both here in New Jersey and around the nation. The problem is that this is a perfect time for corporate interests and large grassroots organizations—corporations like the insurance industry and organizations like the Environmental Federation—to exert influence over politicians with threats of swaying large voter blocks.

The truth is our apathy is breeding an environment that may lead to a sea-change in the way we practice dentistry and oral health is delivered. The power to set our own fees; determine a treatment course for our patients; decide which insurance to accept – if any at all – and what patients to see are in jeopardy.

So, how do we ensure this does not happen? The answer is simple, by maintaining membership in NJDA and by contributing to the NJ Political Action Committee. These are investments in protecting our profession, our bottom line and our financial future. NJDPAC has been one of New Jersey's largest political action committees, but this is now in serious jeopardy. Its sole function is to raise funds from dentists and then make contributions to politicians who are interested in listening to what organized dentistry has to say on issues. Without these funds, we lose the strength of our voice.

Remember, NJDPAC does not support a party. It supports a profession, our profession.

A contribution to NJDPAC is just as important as paying our yearly NJDA dues. Yet, last year, only 22 percent of NJDA members contributed to NJ Dental Political Action Committee. We, as a profession, cannot expect to be successful with political apathy like this. As Benjamin Franklin's was famously quoted, "We must all hang together, or assuredly we shall all hang separately."

Please fill out the included form and make a contribution today to protect our profession and its future.

Still not sure about contributing? Call Jim Schulz, executive director of NJDPAC, to learn more. He can be reached at (732) 821-9400 or via email at jschulz@njda.org.

Treatment Planning Sequence for Implant Dentistry

June 24, 2011

2011 Garden State
Dental Conference & Expo
Ocean Place Resort & Spa
Long Branch, New Jersey

Carl E. Misch BS, DDS, MDS

There is an art form and a science to implant dentistry. The art form is primarily related to esthetics. The science is based on the biomechanical aspects of stress. As a consequence, a theorem for implant dentistry has been developed over the years by Dr. Misch and states most every aspect related to the science of implants should consider the biomechanics of stress.

Dr. Misch has developed an implant treatment planning sequence based upon stress as an implant axiom. Each of the steps below will be addressed for the development of a treatment plan to reduce short and long-term complications.

Topics Include:

- Prosthesis design
- Patient force factors
- Bone density
- Implant key positions & implant number
- Implant size
- Available bone
- Implant design

Full Day CE Programs 7 CEUs Each

Dr. Avishai Sadan: Comprehensive Esthetic Dentistry From Risk Assessment to Recipe for Success
Sponsored by DSG Americus Dental Lab Open to Doctors and Lab Techs

Wednesday October 20, 2010 8 am to 4 pm

Dr. Sadan is Dean and G. Donald and Marian James Montgomery Professor of Dentistry, University of Southern California School of Dentistry. He is the former editor-in-chief of Quintessence International, the former editor-in-chief of Quintessence of Dental Technology (QDT), served on the editorial boards of other journals, and has lectured and published nationally and internationally on esthetic and implant dentistry and biomaterials. Dr. Sadan is a graduate of Hebrew University Hadassah School of Dental Medicine in Jerusalem, Israel where he has also completed an internship in maxillofacial prosthodontics and oral medicine. He received his training in prosthodontics from the LSU School of Dentistry and has also completed a fellowship in prosthodontics emphasizing esthetic and implant dentistry as LSU. A member of several professional organizations including the American College of Prosthodontists, the Academy of Osseointegration, the American College of Dentists, OKU Dental Honor Society, and other organizations, he maintains an intramural practice limited to fixed and implant prosthodontics.

The lecture will allow one to properly understand the fundamentals of risk assessment and proper management of a wide spectrum of patients ranging from the esthetically demanding to the conservatively oriented. This exciting seminar will cover how to create a patient driven approach for treatment planning along with learning the current status of all-ceramic restorations—classifications and indications for all-ceramic systems, from porcelain veneer or single unit crowns to a full mouth rehabilitation.

This course will benefit dentist and dental technicians who are interested in gaining useful knowledge related to contemporary clinical techniques and treatment approaches in esthetic dentistry and fixed prosthodontics. It will be very useful for those who feel lost by constant bombardment of new materials and all ceramic systems as it will provide a logical approach to understanding the nature of the materials. Most important, those who seek successful communication skills to treatment plan, maintain, and manage complications, will be provided with a wide spectrum of clinical scenarios.

Dr. Terry Tanaka: Treatment Planning Guidelines for Restorative and Prosthodontic Problems
Sponsored by Kuwata PanDent Open to Doctors and Staff

Friday April 8, 2011 8 am to 4 pm

Terry T. Tanaka, D.D.S., is Clinical Professor at the University of Southern California, School of Dentistry, Advanced Education Prosthodontics and maintains a private practice in prosthodontics in Chula Vista, California. Dr. Tanaka holds fellowships in the Academy of Dentistry International, American College of Dentists, International College of Dentists and Master in the Academy of General Dentistry, and is a Diplomate, American Board of Orofacial Pain. He has published numerous articles and is widely recognized for his teaching of advanced restorative and prosthodontic procedures and as a research anatomist. An active Rotarian, he helped found the Thousand Smiles Foundation Cleft Lip and Palate Surgery and Dental Care Mission Clinics that provide free craniofacial reconstructive surgeries and dental care for needy children in Latin America. He is especially pleased that the Academy of Dentistry International has named an award the Terry Tanaka Student Humanitarian Award and presented to a Junior dental student who exhibits his kind of humanitarianism.

Important diagnostic criteria for the restoration of every-day restorative problems will be presented in this interactive program that will highlight what is taught in advanced graduate restorative programs that is critical to the success of all restorations. New guidelines will be presented on how age, gender, facial morphology and oral habits affect the dentition and the overall well being of our patients. Doctors, dental assistants and dental hygienists will have an opportunity to treatment plan together as a team using these universal guidelines developed by Dr. Tanaka.

Practical diagnostic guidelines for the treatment of patients with temporomandibular disorders will be presented with indications for effective stabilizing splints and how they are used for patients with tooth wear problems. In addition, videos on how to fabricate splints in your own office and how to adjust the splints in the mouth in 5 minutes will be part of this comprehensive and interactive program. Come prepared with pen and paper, this is an “interactive workshop.”

A Message from NJDA:

Commerce Bank Becomes TD Bank: What This Means to NJDA Members

When Commerce Bank was purchased by TD Bank North the Toronto-based global financial services giant promised not to change a thing, except the name, of the bank has become known as "America's Most Convenient Bank." The relationship that NJDA has built with Commerce as our endorsed banking vendor continues through the acquisition by TD Bank North and we have not seen a single change in the customer service or banking services.

However, it is clear that many NJDA members do not know that the same agreement the Association had with Commerce Bank continues with TD Bank. This agreement allows for a royalty to be given to NJDA based on the number of accounts held by NJDA members (personal and business checking, savings and CDs). To date, we are about a dozen members short of receiving our first royalty payment. And, there isn't much to do if you are a member. All you have to do is call your local branch and tell them you a member of the NJDA and would like your account(s) counted as one in the affinity program, or let them know the next time you visit the branch. Nothing will change with your account(s). If you are just opening an account with TD Bank, simply tell them the same thing.

Royalty payments from endorsed programs, known as non-dues revenue, allow NJDA to keep its dues stable and offer more services to the membership. So please make sure you link your account(s) to the NJDA affinity program at TD Bank.

Middlesex County Dental Society

REGISTRATION FORM

MCDS Bi-Annual OSHA Seminar/Certification

Thursday November 4, 2010

Time: Registration: 6:00 PM Program: 6:30 - 8:30 PM

Place: St. Peters Medical Center, New Brunswick, NJ

Tuition: MCDS Member Dentists & Staff \$25 per person [member benefit]
NJDA Member Dentists & Staff \$55 per person
Non-MCDS/NJDA members/Staff \$75 per person
(payable to Middlesex County Dental Society)

This program will satisfy the OSHA standard on Occupational Exposure to Blood Borne Pathogens, which is required annually for dentists and staff. Each office person trained will receive certification that they have been properly instructed for this OSHA regulation on Infection Control.

Two CEU credits will be awarded to those attending this 2-hour seminar.

This seminar is available to our MCDS members as a

member benefit of MCDS

MCDS Newsletter is the official publication of the Middlesex County Dental Society and is published 8 times annually following each Executive Committee meeting. Articles should be submitted to the Content Editor before the deadline for each issue. Publication materials may be deferred to future issues or edited without changing the author's intent, in order to conform with the requirements of the Newsletter. The publication of an advertisement, opinion or statement does not reflect endorsement, approval, or policy of the MCDS and its newsletter unless stated. All correspondence regarding this newsletter should be directed to the Business Editor.

2010 New Jersey Dental Political Action Committee
